

PHOTOGRAPH, LINE ART, AND TABLE SPECIFICATIONS

PHOTOGRAPHS

Photographs should be glossy black-and-white prints of good reproductive quality, preferably 8 x 10 inches in size; black-and-white or color slides are also acceptable, though not preferred. To avoid damaging photographs, never write on them (front or back) or use paperclips to attach captions or explanatory notes about cropping or placement; instead, number them by affixing to the back a premarked label, and provide a separate list of captions for all illustrative material. Permission to reproduce the images must accompany the manuscript.

Digital images are acceptable, provided they are of sufficient quality and in grayscale (i.e. no color). Please submit files in TIF, GIF, or EPS format at 300 dpi. If the image will be large, it should be sized at 5" x 7"; small images can be 2" x 3". Digital files must not be embedded in the text.

“Call outs” should indicate where photos are to appear within the text, e.g.:
<INSERT FIGURE 1 NEAR HERE>

GRAPHS, LINE DRAWINGS, MAPS AND MUSIC

Graphs, line drawings, maps and music examples to be reproduced in articles must be in a form that is suitable for photoreproduction or scanning. For figures that are already in published form, you should submit clean, high-quality photocopies or 8 x 10-inch black-and-white glossy prints, along with permission to reproduce the figures.

Digital images are acceptable, provided they are of sufficient quality and in black & white. Please submit files in TIF, GIF, or EPS format at 1200 dpi. If the image will be large, it should be sized at 5" x 7"; small images can be 2" x 3". Digital files must not be embedded in the text.

“Call outs” should indicate where illustrative materials are to appear within the text, e.g.:
<INSERT FIGURE 1 NEAR HERE> or <INSERT EXAMPLE 1 NEAR HERE>

TABLES

All tables will be reformatted to the Journal's house style and therefore must be submitted in electronic form. Tables should appear in consecutive order at the end of their respective article.

“Call outs” should indicate where tables are to appear within the text, e.g.:
<INSERT TABLE 1 NEAR HERE>.
