

CONTENTS

1. INTRODUCTION

An Exciting Time for Amateur Mycology	1
How to Use This Book	3
Edibility	3
Coverage Area	3
Midwestern Mushroom Clubs.....	4
Recommended Midwestern Mushrooming Locations.....	5
Acknowledgments	7

2. COLLECTING, DOCUMENTING, AND PRESERVING MUSHROOMS

Equipment	8
Ecology, Ecology, Ecology!	8
Collection Methods.....	9
Making Spore Prints.....	10
Describing Mushrooms in a Journal	11
Determining Odor	11
Determining Taste.....	12
Testing Chemical Reactions.....	12
Preserving Specimens	13
Storing Specimens	13
Midwestern Herbaria	14

3. USING A MICROSCOPE TO STUDY MUSHROOMS

Equipment	16
Calibrating a Microscope.....	17
Chemicals, Reagents, and Stains.....	17
Studying Spores.....	18
Creating a Section to Study	19
Working with Dried Specimens.....	20
Additional Resources	21

4. IDENTIFICATION KEYS

A: Key to Major Groups of Mushrooms	22
B: Key to Pink-Spored Gilled Mushrooms.....	24
C: Key to Pale-Spored Gilled Mushrooms, First Part	26
D: Key to Pale-Spored Gilled Mushrooms, Second Part	32
E: Key to <i>Amanita</i>	40
F: Key to <i>Lactarius</i>	41
G: Key to <i>Russula</i>	45
H: Key to Dark-Spored Gilled Mushrooms, First Part	46
I: Key to Dark-Spored Gilled Mushrooms, Second Part.....	52
J: Key to Terrestrial Pored Mushrooms	56
K: Key to Pored Mushrooms on Wood.....	62
L: Key to Chanterelles and Trumpets.....	66
M: Key to Toothed Mushrooms	67
N: Key to Puffballs and Earthstars.....	68
O: Key to Cup Mushrooms.....	70
P: Key to Morels, False Morels, and Saddles	73
Q: Key to Club and Coral Mushrooms	74
R: Key to Miscellaneous Other Mushrooms	77

5. THE MUSHROOMS	80
------------------------	----

6. THE EVOLUTIONARY PICTURE.....	397
----------------------------------	-----

BIBLIOGRAPHY AND WORKS CITED.....	401
-----------------------------------	-----

GLOSSARY AND INDEX.....	405
-------------------------	-----
